What Is A **Skillion Patio**

Ideal For

- ✓ Backyards & alfresco areas
- ✓ Side access & narrow spaces
- ✓ Poolside entertaining
- ✓ Modern and renovated homes

A Skillion Patio features a single-slope roof design that delivers a clean, modern look while providing excellent water runoff and structural efficiency.

It is one of the most popular patio styles for Australian homes, particularly where a contemporary finish, low roof profile, or cost-effective solution is required.

Select From Different **DESIGN & LAYOUT OPTIONS**

Every skillion patio is designed to suit your home, site, and lifestyle

Design options include:

Attached
structures

Adjustable roof pitch
to suit drainage and
aesthetics

Custom spans
and post
placements

Integration with existing
rooflines and facades

Freestanding
structures

Steel roofing in a wide color range

Our team ensures the structure enhances your home rather than looking like an afterthought.

Select from **INSULATED VS NON-INSULATED ROOFING**

Choosing the right roofing system makes a significant difference to comfort.

Insulated Roofing is Ideal If You Want:

Reduced heat transfer

Better noise control during rain

A more comfortable year-round space

Seamless integration of lighting and fans

Non-insulated roofing is a practical solution for:

Budget-conscious projects

Areas primarily used for shade

Simple, functional outdoor covers

We help you select the right option based on how you plan to use the space.

INSULATED ROOFING ADD-ONS & ENHANCEMENTS

Upgrade your skillion patio with functional and lifestyle features.

LED
Downlights

Ceiling Fans

Integrated
guttering and
drainage

Privacy
screens and
side infills

Custom post
and beam
profiles

These enhancements allow your patio to be
tailored exactly to your needs.

WHY BY DESIGN OUTDOOR PROJECTS?

We specialise in designing and building high-quality outdoor living spaces.

- Over a Decade of Excellence in Outdoor Construction
- Designed to meet Australian Standards
- Attention to detail from design through to build
- Trusted systems and materials
- Clear communication and professional delivery

Our focus is on delivering outdoor structures
that look good, perform well, and last.
