What Is A **Gable Patio**

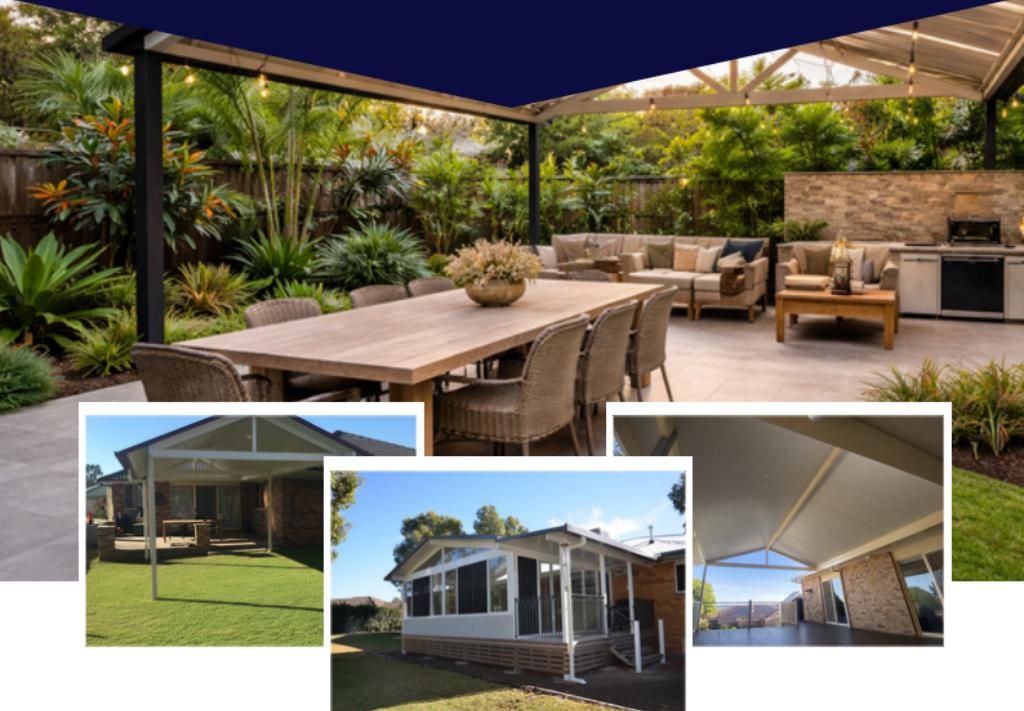

Perfect For

- ✓ Large backyards and alfresco areas
- ✓ Homes with pitched or tiled roofs
- ✓ Entertaining spaces
- ✓ Areas where openness and height are important

A gable patio features a pitched roof with a central ridge, creating a spacious and open outdoor area that feels light, airy, and visually balanced.

This timeless design is ideal for homeowners looking to maximize height, airflow, and natural light while maintaining a strong architectural presence.

WHY CHOOSE A GABLE PATIO??

Gable Patios remain one of the most popular outdoor structures due to their versatility and visual appeal.

- Increased ceiling height for an open, airy feel
- Excellent airflow and ventilation
- Strong architectural appearance
- Allows more natural light into the space
- Suits both traditional and modern homes

A GABLE PATIO CREATES A COMFORTABLE OUTDOOR AREA
WITHOUT FEELING ENCLOSED.

Select From Different **DESIGN & LAYOUT OPTIONS**

Every gable patio is custom designed to suit your home and outdoor space.

Design options include:

Attached
structures

Custom spans
and post
placements

Integration with
existing rooflines
and facades

Standard or raised
gable roof profiles

Freestanding
structures

Steel roofing in a wide color range

Our team ensures the structure enhances your home rather than looking like an afterthought.

Select from **INSULATED VS NON-INSULATED ROOFING**

Roofing choice plays a major role in comfort and usability.

Insulated Roofing is Ideal If You Want:

Better heat control during summer

Reduced noise during rainfall

Improved year-round comfort

Easy integration of lighting and ceiling fans

Non-insulated roofing is a practical solution for:

Budget-focused projects

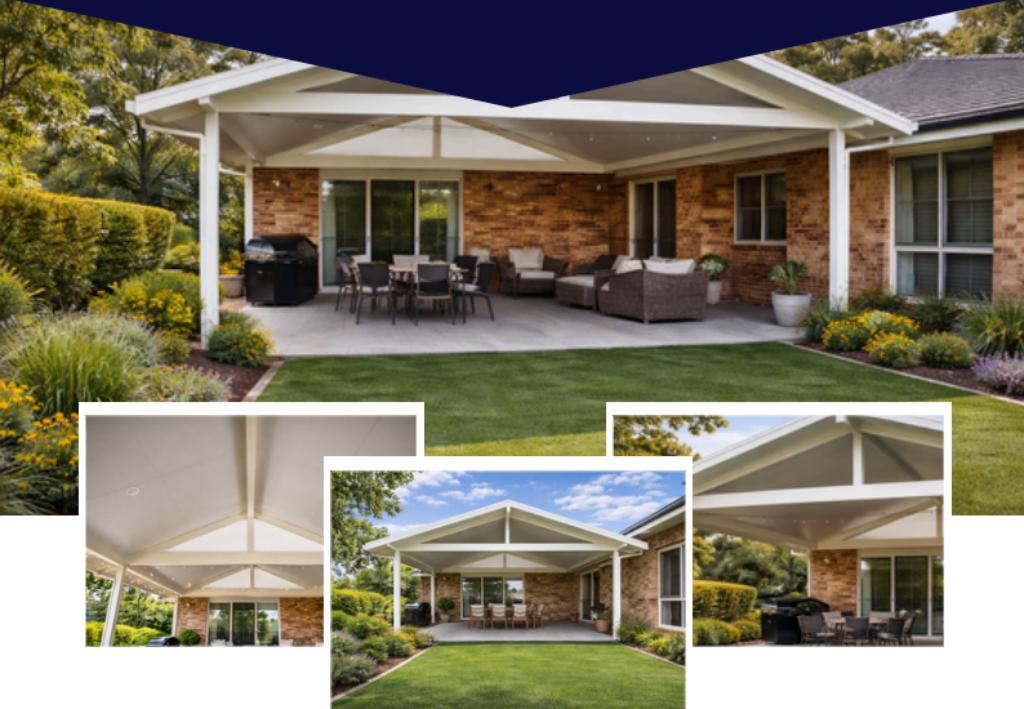

Shaded entertaining areas

Open, naturally ventilated spaces

We guide you through the right choice based on usage and budget.

ADD-ONS & CUSTOM FEATURES

Enhance your gable patio with optional upgrades.

LED
Downlights

Ceiling Fans

Decorative
gable infills

Privacy
screens and
side infills

Integrated
guttering and
drainage
systems

These features allow your patio to function
as a true extension of your home.
